

### **REMARKS**

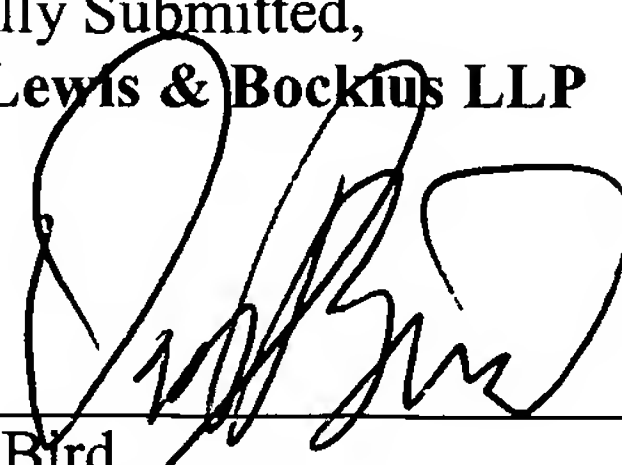

Claims 1-8 and 19 have been cancelled as being in a “use” format not generally acceptable under United States Practice. Claim 10 has been cancelled and its subject matter incorporated into claim 9. Claims 13 and 14 have been cancelled and their subject matter incorporated into claim 12. Independent claims 15, 16 and 18 have been amended to insert “in need thereof” to define the patient to whom the method is applied, and to delete “such as a human” as not being in accordance with United States practice. A minor formal amendment has been made to dependent claims 17.

New claim 20 has been added, which is dependent on any one of claims 15, 16 and 18, and further defines the cancer as being a cancer involving a solid tumour. Support for the treatment of cancer involving a solid tumour is found throughout the specification, for example at page 7, lines 16-29. New claim 21 has been added, which is dependent on any one of claims 15, 16 and 18, and further defines the cancer as being colorectal cancer. Support for the treatment of colorectal cancer is found throughout the specification, for example at page 7, line 30 through page 8, line 10. New claims 22 and 23 have been added, which are directed toward a method for producing an antiangiogenic and/or vascular permeability reducing effect. Support therefore is found in original claim 19 and throughout the specification.

No new matter is added by these amendments, and entry thereof is believed to be in order and is respectfully requested. Following entry of these amendments, claims 9, 11-12, 15-18 and 20-23 are pending in this application.

No additional fees are believed due other than those charged with this new application filing. However, any and all charges or credits should be submitted to the Morgan Lewis & Bockius LLP Deposit Account No. 50-0310.

Respectfully Submitted,  
**Morgan Lewis & Bockius LLP**
